## THE FRENCH NOTE

### Will Be Made The Subject of An Informal Cabinet Meeting.

### CHINA'S NEW CAPITAL

### The Imperial Family Is Contemplating Another Change of Base For the Imperial Court.

### President McKinley Will Arrive in Washington Tomorrow To Confer With His Cabinet.

Washington, Oct. 8.—Developments of any consequence in the Chinese situation are not looked for until after the return of President McKinley to the capital. He is expected tomorrow morning and a cabinet meeting probably will be held at once, when questions presented by the French note will be gone over in an informal way. The French note, which recently has been addressed to the powers, is not regarded as just now of pressing necessity for action as several of the nations interested, already have instructed their representatives in Peking to ascertain whether the Imperial edict completely names the persons deserving of punishment and other features of the French proposal contains propositions which can remain in abeyance. This government may not consider seriously the propositions which look to the prohibition of the importation of arms into China and the dismantling of the fortifications. Interest meanwhile centers in the report which Mr. Conger will make regarding the adequacy of the punishments to be meted out by the Chinese government to those persons who were instrumental in the Boxer revolt and the future course of this government may depend largely on what the investigations now being conducted develop. No advice have come as yet from Mr. Conger on this subject, but this is not surprising, as the work to be undertaken, is of considerable magnitude. The war department officials expect that all the American troops which are to be sent from Peking to Manila, will be out of China by the 21st inst. Such efforts as have been made by the state department urging the return of the Imperial family to the capital city, seem up to this time, to have been ineffectual. The last official advice of Minister Wu, now about a week old, indicated their intention of going to Sian Fu, in the province of Shensi, which is further to the west than they now are. The fact that the acting governor of the province was directed to "refrain from all extravagant preparations" in making arrangements for the Imperial family, is to Mr. Wu's mind, an indication that their sojourn at Sian Fu is to be but temporary. Conditions respecting the question of food and telegraphic communication were unsatisfactory in Tai Yen, in Shensi province where the court has been located since its departure from Peking and these essential requisites will be improved in their new abode. Mr. Wu believes that Earl Li, the principal peace negotiator, already has started for Peking as a messenger of several days ago indicated that it was impossible to reach him by telegraph at Tien Tsin, as he had started for the capital.

### Germans Were Repulsed.

Tien Tsin, Oct. 8.—A German force came into collision with eight thousand Chinese, described as boxers, a few miles south of Tien Tsin on Friday. The Germans were checked and

### The Mariners Dread.

New York, Oct. 8.—The Old Dominion line steamship Hamilton, bound for Norfolk, ran into and sank the Philadelphia schooner A. A. Shaw, coal laden, bound for Providence, three miles from Scotland Lightship, early Sunday morning. Captain Smith and seven men, comprising the schooner's crew, were saved, and brought here to the Hamilton. The Hamilton was running at top knot speed at the time and struck the Shaw in the dense fog, cutting her almost in two.

## A Fine Baby

Makes any mother proud. There are a great many proud mothers whose children have been puny and sickly until they began the use of Dr. Pierce's Favorite Prescription. That medicine which "makes weak women strong" has given them the strength to bear hearty, and healthy children for the first time. "Six years ago after the birth of one of my children I was left in a weak run down condition," says Maria O. Hayzel, writing from Brookland, D. C. "My health seemed utterly gone. I suffered from nervousness, female weakness and rheumatism. Life was a burden. I doctored with three different physicians and got no relief. I tried several patent medicines, all with the same result. I began to get worse and to add to the complications I suffered terribly from constipation. I chanced to see one of your advertisements and I commenced to take Dr. Pierce's Favorite Prescription and Pleasant Pellets and began to improve right away, and continued improving and gaining in strength. I cannot express the relief it was so great. Seven months later my little daughter was born without much trouble. I feel that I would never have been able to endure my confinement only by the help due solely to Dr. Pierce's medicines. She was a fine healthy child and the only one I have ever been able to nurse. She is now two years old and I have never had to take any medicine since, so I feel that your medicine has made a lasting cure with me."

### An Appeal For Aid.

Galveston, Texas, Oct. 8.—Miss Clara Barton, president of the National Red Cross society, has issued a statement to the manufacturers and business men of the country, in which she appeals to them for aid in the way of material to be used in building homes for those who lost their all in the recent storm.

### Evidence of Murder.

Gallopols, O., Oct. 8.—The dead body of Lawson Earwood, aged 20, with the skull crushed, apparently by a blunt instrument, was found on the Ohio river road three miles below this city, yesterday. Edward Burnett, who was last seen with Earwood in a wagon, was arrested.

compelled to retire on Tien Tsin. There is reason to believe that the Chinese in this case were not boxers, but were Li Hung Chang's veterans, who had been ordered to wait near here in view of the possibility that the foreigners would bar his progress to the capital.

### Treachery Is Feared.

Tien Tsin, Oct. 8.—Li Hung Chang, whose visit to Peking had apparently been postponed indefinitely, left Saturday for the Chinese capital. The five Belgian engineers and fifteen missionaries, who had been kept prisoners for many weeks at Pao Ting Fu, but were recently released under orders from Li Hung Chang, who directed that they have safe escort to Peking, refuse to start, fearing treachery on the part of the Chinese escort.

### Acknowledges His Fault.

Peking, Oct. 3, via Tien Tsin, Oct. 6, via Shanghai, Oct. 8.—By an Imperial decree issued at Tai Yuen Fu, capital of the province of Shan Si, dated Sept. 15, Emperor Kwang Hu denounces the "Boxers" movement and designates for punishment nine ringleaders. He acknowledges his own fault and rebukes himself; but he places the chief blame upon the princes and nobles who participated in the movement and protracted it.

### Preparing For The Winter.

London, Oct. 8.—A despatch, dated October 5, from Ma-Tow, on the Pei Ho, says: "Sir Alfred Gascolee (the British commander) has returned to Peking, after issuing orders that all the British troops, except the Wei Hai Wei regiment, shall prepare for the winter. The American marines from Peking have arrived here. Some of the French troops are leaving."

## FISHERIES RIOTS

### Deadly Rivalry Between Old and New Methods.

Madrid, Oct. 8.—The Spanish government is devoting serious consideration to the rivalry among the fishermen along the Galician coast, which culminated Saturday in firing on the Spanish gunboat Vasco Nunez de Balboa, as she was leaving the port of Vigo. There is apparently no means of removing the bitter feeling between those who use out of date fishing apparatus and those who employ the latest contrivances.

A dispatch from Vigo says that the naval commandant of the port, who was attacked, took refuge on a German warship, and a strong escort was needed to protect him against the populace on going ashore.

### Successful Strike at West Point.

West Point, N. Y., Oct. 8.—Twenty-two of the waiters in the canteen mess stopped work just before the dinner hour Saturday and refused to handle a single ration unless a raise of \$5 per month in their salary was guaranteed. Major Hall, treasurer of the commissary department, was summoned and acceded to the demand. A strike is also pending in two of the other departments. The grievances are based upon the recent increase in the number of cadets, which naturally makes additional work for the civilian employees. The old scale of the mess hall waiters was \$20 per month with rations.

### The Peary Expedition.

St. Johns, N. F., Oct. 8.—The failure of the Peary exploring steamer Windward to return from the north leads local observers to believe that the explorer will not attempt to get back this autumn. Probably the season just passed was an open one in the far North. Should that have been the case, Lieut. Peary is likely to have taken the Windward into some high latitude, hoping to use her in a further expedition next season. This would mean that he has made no special record during the present year.

### Prospect Not Flattering.

Frankfort, Ky., Oct. 8.—The senate has passed a substitute for the horse election bill. The substitute is virtually a return to the law which was in force when the Goebel law was enacted and under which the county judges appoint use election officers. The house will almost certainly reject the substitute, and the chances for the passage of a new election law at the present session are not flattering.

### A Quiet Sabbath Day.

Shamokin, Pa., Oct. 8.—Sunday was the quietest day in this locality since the strike began three weeks ago. Outside of hundreds of miners attending services at various churches, the men kept close to home, feeling confident that the strike would soon be a matter of the past if President Mitchell calls for a convention as he announced that he would. However, the local strikers say until they are ordered back, they will not report for work, no matter what inducements operators and coal carrying companies offer.

### Will Be Guided By Mitchell.

Wilkesbarre, Pa., Oct. 8.—The coming convention of miners to agree upon terms of a settlement of the strike is the principal topic of conversation among the strikers. The delegates from the Wyoming valley will be guided, a great deal by what President Mitchell says. If he advises a settlement upon the 10 per cent. increase basis, the representatives to the convention from this district will probably be unanimous for it.

## MITCHELL SILENT

### President of Mine Workers Has Nothing to Say Regarding Convention.

### DATE IS NEAR AT HAND

### Important Conference of Miners' Officials At Which Arrangements Were Probably Made.

### Indications Are That The Deliberations Will Not Be Marked By Hasty Action.

Philadelphia, Oct. 8.—It is the general belief that President Mitchell of the United Mine Workers, will issue a call for miners to consider an offer of increased wages, to be held at Scranton, and the proposition is that Thursday next, will be named as the time. Mr. Mitchell, however, declines to give publicity to the matters discussed by himself and other officials of the organization at secret conference Sunday, at Hazleton, and he has given no intimation as to when the convention will be held. This and other questions to be considered, are supposed to have been fully discussed at Sunday's conference.

Indications are coming to the surface that hasty action will not likely be taken on the question by the convention; that recesses will be taken, pending conference of committees with the operators. These conferences will be requested with the purpose of obtaining a clear understanding as to the permanency of the increased pay, if accepted, and also to ascertain the operators' views on the proportion of the increase to be respectively allowed to miners and mine laborers.

Sheriff Harvey, of Luzerne county, yesterday, through President Mitchell, issued his ultimatum to marching strikers. He says he has been lenient with them, heretofore, but that they must refrain from marching or take the consequences. President Mitchell assured him he would endeavor to have the men preserve the peace.

## IMPORTANT CONFERENCE.

### Call For Miners Convention Believed To Be Near At Hand.

Hazleton, Pa., Oct. 8.—A conference which is believed to mark the beginning of the end of the anthracite coal miners' strike, which entered upon its fourth week today, was held at the headquarters of the United Mine Workers here Sunday afternoon. Those present besides President Mitchell were Fred Dilcher, of Ohio, a member of the executive board, and Presidents L. D. Nichols, of District No. 1, Lackawanna and Wyoming valleys; James Duffy, District No. 7, Lehigh valley; John Fahy, District No. 9 Schuylkill valley. Although no information was given it is known that the question of issuing a call for a joint discussion was the matter discussed.

The coming convention will be held at Scranton unless something unforeseen should arise between now and the time of issuing the call. Besides taking up the matter of a convention call it is understood that the question of the representation was also considered. The three district presidents made full reports as to the conditions as they now exist in their districts. If the date has been fixed only Mr. Mitchell and his colleagues know it.

Of course, the principal matter to come before the miners will be the acceptance or rejection of the 10 per cent net increase offered by most of the operators. President Mitchell says that not an official of the United Mine Workers will take a hand in any action the convention might take as the men must themselves settle everything that comes before them. How long the convention will be in session depends on the amount of business it may be presented. The belief is general that the miners will accept the increase.

It is said that Sheriff Harvey has reached the limit of his patience in relation to the marching of bodies of men and that the marchers must obey his request to remain within the pale of the law or take the consequences.

## A LONG PASTORATE

### Forty Years in the Same Pulpit Is Rev. Van Buskirk's Record.

Greensburg, Oct. 8.—Forty years ago yesterday the Rev. D. R. Van Buskirk preached his first sermon in this city as the pastor of the Christian church. That event was celebrated yesterday at the same church, by the same pastor preaching a memorial sermon, reviewing the history of the church and recalling the noble men and women who stood by him and were the pillars of the church in its infancy. Pastors of the several churches took part in the meeting.

### Independent Glass Company.

Marion, Oct. 8.—Independent window glass manufacturers are perfecting the organization of the Independent window glass company, which will act as selling agent for the factories. At the meeting at Pittsburgh rules similar to those followed by the old American glass company, before it was absorbed by the trust, were adopted. The independent company will be capitalized at \$25,000, or \$25 for each pot represented. The headquarters will probably be in some Ohio city, where the company will be incorporated.

### Miner Crushed by a Car.

Evansville, Ind., Oct. 8.—George Evans was killed in the mine at Ayresville, in Pike county, by being crushed under the wheels of a car.

## Would Raise the Standard.

Washington, Oct. 8.—The board of visitors to West Point for 1900 has submitted its report to the Secretary of War. The board considers it unfortunate that so much time during the first year is of necessity devoted to the study of elementary subjects and for the purpose of obviating this necessity recommends that the standard of admission be raised. To inaugurate this change the board suggests that the Secretary of War should have control over the conditions of admissions thus making it possible to keep the admission requirements constantly in harmony with the standard prevailing in the high schools of the country.

### QUARRELOVER THE PLAY

### Jenkins Swails, Son of the Village Grocer, Shoots Fleming Alkern Near the Heart.

### Keg of Beer In a Box Car. Game of Cards, Knife and Pistol Make Bad Combination.

Swails, who claims the shooting was done in self defense, is a son of George S. Swails, a grocer, and one of the best known men in the southwestern part of Marion county. After young Swails had closed his father's store for the night he joined a party of a half a dozen men, including Alkern, and a keg of beer was carried into a box car. A game of cards was proposed. It is said that Alkern began losing and finally became abusive, accusing Swails of cheating. In the discussion which followed it is alleged that Alkern drew a knife, whereupon Swails drew his revolver and fired, the ball striking Alkern in the left side below the heart, inflicting a mortal wound. Alkern is a laborer and has a wife and four children.

Acton, Ind., Oct. 8.—An argument over a game of cards in progress Saturday night in a box car on the siding in this village, resulted in a fatal shooting affray early Sunday morning. Fleming Alkern was shot in the left side and cannot live. Jenkins Swails, 23 years of age, who did the shooting, is in jail.

## A MONSTROUS RECORD.

### Allen County Young Man's Fourth Arrest For Criminal Assault.

El Wayne, Oct. 8.—For the fourth time in his life of twenty-four years Charles Hobbs is under arrest for criminal assault. His last crime was committed a few days ago in St. Joe township. He was sent to the reformatory for his first crime ten years ago, and was transferred to the Home for feeble-minded. After his release he repeated his crime and served two years in prison. A week after his release he committed another assault, but was adjudged feeble minded, and returned to the home. He escaped from there two months ago and wandered about the country, apparently harmless, until last Wednesday, when he made the assault referred to.

## A Novel Case.

Union City, Ind., Oct. 8.—James Bennett, of near this city, filed charges against Charles Knoll, of this place, charging him with assault and battery with intent to kill. He avers that Knoll represented himself as an officer and that when he refused to enter jail at the alleged bogus policeman's order, the latter struck him in the head and face with a brick, seriously injuring him. Knoll is in jail awaiting a hearing.

## A BLOOD STAINED HORSE.

### The Effect It Had In Subduing a Party of Indians.

For sheer, cool nerve and audacity, inspired genius in dealing with men, commend me to Clarence King, the geologist, if a story that is told about him be true. Mr. King, the tale goes, was in the field all one summer with a government expedition. The field happened to be in the far west, and the men he was compelled to employ as assistants were a band of cheerful ruffians, half breed desperadoes and "greasers" scum. Bad as they were, they worked well, and they were indispensable.

One night one of them deserted. Mr. King knew what that meant. It meant a stampede and an empty camp if the deserter were allowed to go unpunished. He chose a companion on whose silence he could depend, mounted and took the trail. On the third day the deserter was overtaken, captured and landed in a convenient fort. The runaway had subsisted for the three days of his liberty on such game and birds as he could kill. His horse was white, and as he rode often with prey slung to the saddle, the animal was streaked and stained with blood.

The man being in safe keeping, Mr. King and his companion rode back to camp, lending the crimson streaked horse, with all the deserter's belongings strapped to his back. They spoke no word of the missing man to his former companions, but dismounted in grim silence. The men endured the pangs of curiosity as long as they could. Then they sent a committee to Mr. King to make inquiries about the fugitive. Mr. King gave a meaning glance at the blood stained horse and made answer briefly.

"He is gone," he said impressively. "He is gone where anybody else who tries to desert will go too." Half breeds and "greasers" gasped, and from that day on no one of them all ever tried to desert. —Washington Post.

## REPUBLICAN POLICY.

1896.—OPEN THE MILLS.  
1900.—KEEP THEM OPEN.

MR. BRYAN will omit all allusions to the Tammany Ice Trust during his campaign tour of New York.

BRYAN would have the men of this country believe that it is far better to haul down the flag in the Philippines than to keep the wheels of commerce turning in the United States.

DURING the Spanish war the flag was worn and flown by all patriotic Americans. Let them wear and fly it now to show they uphold the administration in keeping the fruits of the war with Spain.

IN 1895, under democratic administration, our favorable trade balance was \$75,568,200. During the last three years, under the republican policy of expansion in the world's markets, our trade balance has averaged more than \$565,000,000 each year. This means more work for the mills and more work for American labor.

BRYAN either believes what he says or he does not so believe. If he believes what he says than he thinks there is danger of the republic being converted into an empire. And since an empire could only be brought about by the people Bryan has lost faith in the people. If he does not believe there is danger of an empire he is preaching something he does not believe and that is dishonest.

AT Marion, Indiana, Bryan was asked what he thought about the disfranchisement of the negro in North Carolina. Instead of answering the question he told his audience about an obsolete provision of the constitution of Oregon which was passed before the war, and which was abrogated by the fourteenth and fifteenth amendments to the federal constitution, and which therefore has absolutely no binding force, and has not had for over thirty years. An yet there are men who pretend that Bryan is not a demagogue.

MR. BRYAN continues to tell the people that the republicans have nothing to say against any trust except the Tammany ice trust. The statement is false as Bryan of course well knows. The republican platform pledges its party to anti-trust legislation. Republican candidates for president, vice president and congress are pledged to such legislation. Republicans have much to say of Croker's ice trust, because Croker is one of Bryan's chief managers. Our party also frequently mentions Jones' cotton bale trust because Jones is the Bryanite chairman. Bryan's talk will not stop republicans from calling attention to the fact that his managers are connected with two of the worst trusts in the country.

It should not be forgotten that the sugar trust is a democratic institution. There has not been a democratic congress in twenty years that has not legislated in favor of the sugar trust. The chief legislative act in behalf of that trust was the Wilson tariff act which Bryan as congressman voted for. On the other hand there has scarcely been a republican congress in twenty years in which some democrat did not present some bill in favor of the sugar trust. It was only during the last congress that Senator Jones the present democratic national chairman, introduced a bill to pay back to the sugar trust more than one million dollars that had been collected in tariff duties. The sugar trust is perhaps the worst of the whole lot, and it is purely a democratic trust.

## Free of Charge.

Any adult suffering from a cold settled on the breast, bronchitis, throat or lung troubles of any nature, who will call at Peter's drug store, will be presented with a sample bottle of Boschee's German Syrup free of charge. Only one bottle given to one person, and none to children without order from parents.

No throat or lung remedy ever had such a sale as Boschee's German Syrup in all parts of the civilized world. Twenty years ago millions of bottles were given away, and your druggists will tell you its success was marvelous. It is really the only Throat and Lung Remedy generally endorsed by physicians. One 75 cent bottle will cure or prove its value. Sold by dealers in all civilized countries.

Rev. T. S. Tinsley, who preached here two weeks ago at the Christian church, has accepted a call a pastor of a church at Chicago.

## RECORDS ON TRUSTS

Comparison of What Parties Have Done to Regulate.

## ORIGIN OF ALL STATUTES

History of the Effort to Amend the National Constitution.

Defeated by the Votes of the Party to Which Mr. Bryan Looks For Success—That Gentleman's Own Record While a Member of Congress—Where the States Right Doctrine Cuts a Figure—Only Through Republicans Can Effective Remedy Be Secured.

Trust agitation by Mr. Bryan and his political colleagues is energetic but unmeaning, save to that extent wherein their general policy is an attack on the protective tariff system. Experience therewith has in the past proved not only a detriment to trusts but to labor in every avenue of employment. The public generally understands that in four years of control of the government the Democracy enacted not a syllable of anti-trust legislation and that during Mr. Bryan's service in congress he proposed not one measure for the regulation of such abuses as may exist. All the anti-trust laws on the statutes are Republican made, a fact which cannot be disputed. Matters of this kind are familiar to the people. But another trust control agitation was before the last congress and the course of it is well worth reviewing. True to its promises to the people, the Republicans in the first session of the Fifty-sixth congress attempted to provide a remedy for the trust condition. It was generally conceded that a constitutional amendment was necessary, if congress was to act, and so at an early day proposed amendments were introduced conferring power on congress to enact anti-trust and anti-monopoly laws. These proposed amendments were referred to the committee on the judiciary, and there received most careful consideration.

Early in the session the Democrats asserted that the Republicans would not do anything; that a "bluff" was all that was intended. A subcommittee of that committee was appointed, consisting of three Republicans and two Democrats. The Republicans of that subcommittee reported to the full committee a proposed amendment, which provided that "congress should have power to define, regulate, prohibit or dissolve trusts, monopolies or combinations, whether existing in the form of a corporation or otherwise." To guard against the Democratic doctrine that "state rights" might be interfered with this provision was added: "The several states may continue to exercise such power in any manner not in conflict with the laws of the United States."

Strange to say, the Democrats in committee opposed the proposition on the ground that it was a surrender of a power belonging to the states to the congress of the United States. At their request a report to the house was delayed for weeks, but no substitute was suggested, and finally the report was made. Then came the question of consideration in the house itself. On Monday, May 21, Mr. Ray, chairman of the committee, asked unanimous consent for consideration for three days, beginning when the Alaska bill, then under debate, should be concluded. To this Mr. Richardson, leader of the Democratic side, objected. This action of the Democrats compelled the Republicans to bring in a rule, which was finally adopted, against Democratic opposition.

When the proposed amendment came up for consideration, under the rule, the Democratic party and press arrayed themselves against it. The vote was taken June 1, 1900. One hundred and fifty-four voted for the proposed amendment and 132 against. Five Democrats voted for and two Republicans against it. As an amendment to the constitution cannot be submitted to the people except on a two-thirds vote of both houses of congress, the proposition to submit to the people the question whether congress shall be empowered to regulate and control trusts and monopolies was defeated by the Democratic party. In other words, that party in congress refused to allow to be submitted to the people a proposition to confer on congress power to do just what it now insists congress should do, and is blaming a Republican congress for not doing. Mr. Bryan is promising to do or have done if elected, that which the party to which he belongs has said shall not be done.

The proposition was defeated by it on the ground principally that such power should not be conferred on congress at all. In 1898, in a speech made at Chicago, William J. Bryan was advocating a law to be enacted by congress that a corporation created by the laws of the state should not be permitted to do business in another until it had received a license from congress to do so. The question was asked if such a law would be constitutional. His reply was that if not "I am in favor of the amendment to the constitution that will give to congress the power to destroy every trust in the country."

When William J. Bryan was in congress he belonged to a committee to which a similar proposition was referred. No report was made, and he made no effort to secure a favorable report. It is only fair to assume that he sympathizes with his party in the doctrine of state rights to the extent that he is unwilling to confer on congress the power to correct these evils when the states cannot or will not enact laws on the subject.

It is not fair to assume that this cry

## WEAK NERVES

Weak nerves mean thin blood, and thin blood means an unhealthy stomach. To strengthen the nerves and purify the blood Hosteter's Stomach Bitters should be taken faithfully. It will not fail to cure CONSTIPATION, INDIGESTION, DYSPEPSIA, NERVOUSNESS, and prevents MALARIA, FEVER and AGUE. Why not get well at once by trying the Bitters. See that our PRIVATE REVENUE STAMP covers the neck of the bottle.

BE SURE YOU GET THE GENUINE. Hosteter's Stomach Bitters.

against the trusts is raised simply for effect at this particular time, and not with any purpose to secure the enactment to laws preventing the evils complained of? It is perfectly clear that if any remedy is to be afforded through national power the election of a Republican congress and a Republican president is necessary. Only through such a result can the question be submitted to the people and the requisite power vested in the congress of the United States.

## BETTER QUIT TALKING

Bryan Has Degenerated Into a Third Rate Stump Speaker.

If Bryan is not making any better impression in the West than his printed speeches are in the east, he had better quit talking. The general comment one hears about his efforts is that they are worthy only of a cheap demagogue and that Bryan has degenerated into a third rate stump speaker. The paltry trash that he has been turning out evidently shows how hard Bryan finds the effort to talk "imperialism" when his ideas have been trained to free coinage of silver at 16 to 1. Speaking of 16 to 1 calls to mind the fact that Secretary Gage has punctured a Bryan demagogic utterance.

Bryan says the government is coining every day silver dollars at 16 to 1, leaving his hearers under the impression that the present administration indorses one of the things which he (Bryan) stands for. Now, the government is coining the surplus silver it acquired under the silver purchase law and coining it by direction of Congress into dollars which the government can float as dollars because they can be under the gold standard exchanged for gold. But there is a vast difference between coining this surplus and the free and unlimited coining of silver which Bryan wants so badly and which the country won't have.

The liberators will never become the oppressors. A self governed people will never permit despotism in any government which they foster and defend.—William McKinley.

## Appeals to "Ignorant Foreigners."

Four years ago Bryan did not expect much help from the German-American voters, an overwhelming majority of whom were and are sound money men, and he did not take any special pains to win their support. This year he appears to believe that he can deceive them with his "paramount issue," and is trying to coax them to overlook his financial heresies on that account, and in doing so he is appealing to them as Germans and seeking to flatter their German pride and instinct, forgetting that after his 1896 defeat he attributed it to "ignorant foreigners."

Has Struck His Level. Senator Wellington seems to have struck his level rapidly as a Democratic "spellbinder." He is now billed to address audiences in company with the "one and only" John J. Lentz of Ohio.

## POLITICAL BREVITIES.

John M. Lewis spoke at Surprise Saturday night. He was accompanied from Seymour by a drum corps. Though it rained all evening the school house was comfortably well filled by attentive listeners. W. P. Masters, John Hamilton and E. A. Remy each spoke briefly. There were a few noisy Bryanites on the outside and each of these should be taught a wholesome lesson by the prosecuting attorney.

John M. Lewis speaks at the Eckelman school house west of Jonesville tonight.

Senator Beveridge speaks at Columbus tonight. A great many from here would go to Columbus to hear him if there was a train to get home on tonight. Some will go anyway.

B. F. Whaley, of Shelbyville, who has voted the democratic ticket all his life writes the democratic ticket all his life writes an open letter declaring for McKinley. He has a son in the Philippines and he refuses to vote with a party that encourages Aguinaldo, and prolongs the war. He believes in sending by the boys that carry the stars and stripes.

J. A. Cox, candidate for prosecuting attorney, spoke to a splendid crowd at Vallonia Saturday night. A McKinley club was organized with 75 members. The republicans of Driftwood are in good shape for celebrating a great victory in November.

SENATOR JOHN C. SPOONER, of Wisconsin, will speak at Brownstown, O. T. 18, at 1 o'clock, p. m.

The matter of good roads is important and these several proposed roads call for attention and consideration. Each road as proposed should be considered on its own merits. Only a few days remain before this election.

For three days and nights I suffered agony untold from an attack of cholera morbus brought on by eating cucumbers," says M. E. Lowther, clerk of the district court, Centerville, Iowa. "I thought I should surely die, and tried a dozen different medicines but all to no purpose. I sent for a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and three doses relieved me entirely." This remedy is for sale by C. W. Milhous.

## Beware of Ointments for Catarrh that Contain Mercury

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure manufactured by F. J. Cheney & Company, Toledo, Ohio, contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by druggists, price 75c. per bottle.  
Hall's Family Pills are the best.

## "Ads" Make Business.

Dealers who sell proprietary articles and novelties of any kind have excellent opportunities to observe the results of newspaper advertising. So convinced are they that the publicity of the newspaper columns make trade that they refuse to handle any article which has not been thoroughly advertised in that way. Printer's Ink publishes a letter from a large western dealer to a manufacturer in which the former makes an order for goods conditional on a promise to place "ads" in the local newspapers. There could be no better proof than this that newspaper advertising sells things.

### Hurt in a Runaway.

This afternoon Charles Elrod had  
the big grey team hitched to the oil  
wagon at the tank near the S. I. depot.  
He stopped in front of the team to lead  
them forward. The horses started on  
a run and dragged and tramped on  
Elrod until they struck another wagon  
when his hold was broken. The team  
ran down Chestnut street to about  
Fourth street before it was stopped.

Elrod was taken to Dr. Kye's office  
where his injuries were cared for. He  
is badly bruised about the legs and a  
gash is cut in the left side of his head,  
but his injuries are not of a serious  
nature.

### Bryans Picture Did It.

The engine pulling the local freight  
west was ditched at Brownstown this  
morning. The cause at first reported  
was laid to a misplaced switch but in-  
vestigation shows that the engineer  
had placed a Bryan picture in the cab,  
which is supposed to have caused the  
engine to go wrong.

Years ago letter writing was, for  
ladies, an elaborate, serious accom-  
plishment. Miss Mary E. Wilkins, in  
an article entitled "When People  
Wrote Letters," contributed to The  
Youth's Companion of October 25th,  
describes with delightful humor the  
practice of this now almost lost art.

### JUPITER FLUVIUS!

### A Day of Very Constant Rainfall.

The rainfall here for the 24 hours,  
ended at 8 o'clock of Sunday morning,  
October 7th—a total of very nearly two  
and three fourths inches—was very un-  
usual. This amount, in any one day,  
has been officially noted at this station  
but six times in sixteen years, and in  
all that time it has been exceeded on  
but four dates.

The "high-water" records here are  
totals of three inches on May 29, 1889,  
January 6, 1895, and June 19, 1895,  
and six inches and a fraction on the  
4th of March, 1897, the inch and one-  
half mark has been reached 33 times,  
and two inches or over were recorded  
on each of 13 days. The normal Oc-  
tober precipitation for a period of 24  
years is 2.72 inches.

Story of a Slave.

To be bound hand and foot for years  
by the chains of disease is the worst  
form of slavery. George D. Williams  
of Manchester, Mich., tells how such a  
slave was made free. He says: "My  
wife has been so helpless for five years  
that she could not turn over in bed  
alone. After using two bottles of  
Electric Bitters, she is wonderfully  
improved and able to do her own  
work." This supreme remedy for fe-  
male diseases quickly cures nervous-  
ness, sleeplessness, melancholy, head-  
ache, backache, fainting and dizz-  
spells. This miracle working medi-  
cine is a godsend to weak, sickly, run  
down people. Every bottle guaran-  
teed. Only 50 cents. Sold by W. F.  
Peter, druggist.

### That Joyful Feeling

With the exhilarating sense of re-  
newed health and strength and internal  
cleanliness, which follows the use  
of Syrup of Figs, is unknown to the  
few who have not progressed beyond  
the old-time medicines and the cheap  
substitutes sometimes offered but never  
accepted by the well-informed. Buy  
the genuine. Manufactured by the  
California Fig Syrup Co.
